

# International Library Telescope Observing Week

Sept. 7 – Sept. 14, 2024,  
first two hours after sunset.

See ...

the craters on the Moon,  
the Galilean moons of Jupiter,  
the rings of Saturn,  
and much, much more  
through the **Library Telescope**.

**All you need  
is a clear sky!**

**Saturn  
and its rings!**
